

**Arizona Department of Environmental Quality**

**OPERATOR CERTIFICATION  
EMERGENCY MANAGEMENT PLANNING (EMP)  
DRINKING WATER WORKSHOPS**

**Workshop space will be limited; please register early.**

**TRAINING OBJECTIVE**

The Drinking Water Section will conduct one and one-half day, twelve (12) hour workshops on emergency management planning for facility owners and operators of drinking water and wastewater systems and for public and industrial and critical infrastructure entities in Arizona communities. The workshops will provide updates on protocols and procedures for all Federal, state, tribal and local responders to coordinate emergency response statewide.

**NEW TOPICS INCLUDE:**

- HANDS-ON FIELD SAMPLING KITS
- FLU PANDEMIC RESPONSE PLANNING
- HAZARDOUS MATERIALS SPILLS
- CAPACITY MAINTENANCE OPERATIONS MANAGEMENT (CMOM).
- MEDIA COMMUNICATIONS
- PUBLIC NOTICE REQUIREMENTS

Part of each workshop will include attendee participation in a table-top exercise simulating a possible incident at a public water facility.

This training earns the attendee twelve (12) professional development hours. The Arizona Operator Certification Program requires professional development hours for certificate renewal.

There is no cost for this training. Lodging, meals and transportation are the attendee's responsibility.

**LOCATION, DATES and LODGING**
